Foam Packaging

## Instapak® Quick™ packaging: All the cost-saving benefits of foam-in-bag packaging in a convenient compact system.

- **The ultimate in product protection:** Offers all the protection of Instapak® foam during shipping, warehousing and general handling.
- **Easy to use:** In minutes, anyone can become a packaging expert.
- **Versatile:** Economically and efficiently protects products of almost any size, shape and weight.
- **Fast:** Expands in seconds to form custom-fit cushions.
- **Space-efficient:** The equivalent of a room full of packaging material can be stored in a single carton.
- **Convenient:** Just-in-time packaging for any size company.
- **Customer satisfaction:** Your customer receives your product damage-free in a neat professional package.

# Instapak® Quick™ packaging

## Easy to use, protective foam cushions in an instant

Instapak® Quick™ foam-in-bag packaging is perfect for small to mid-size companies looking for the superior cushioning properties of Instapak® foam without a large up-front investment.

One small box of Instapak® Quick™ foam packaging can produce protective cushions for 24 cartons. Your products are safely protected and your company saves valuable operating space with Instapak® Quick™ packaging.

1 Remove the bag from the Instapak® Quick™ warmer, unfold it and lay it on a flat surface.

2 Apply pressure to the "Press Here" area on the lower left side of the bag to open the inside seal.

3 Pat part "A" and part "B" back and forth and the bag will begin to expand.

4 Place the expanding foam-filled bag in the shipping carton and nestle the product onto the cushion.

5 Place a second expanding foam-filled bag on top of the product and close the carton flaps.

6 The Instapak® Quick™ bag expands around the product and against the carton to form a top cushion.

## Environmental profile

- Provides superior protection with minimal material. Less packaging means less waste.
- May be disposed of with ordinary trash or can be reused as carton filler.
- Can be processed in municipal waste-to-energy facilities.
- Compacts to approximately 10% of its original volume in a landfill.
- Will not degrade to pollute air or ground water.
- Produced without CFCs or HCFCs.
- May be returned to any of our 25 Instapak® foam return locations worldwide.
