

 **Sealed Air**

Fill-Air™ TS

Inflatable packaging system

The simple, tidy, versatile, inflatable packaging solution

Fill-Air™ TS

Advantages of Fill-Air™ for you and your customers

- **On-demand packaging**
Cushions are produced automatically
- **Versatile and easy to use**
Produces a continuous, perforated chain of air-filled cushions for all your void fill requirements
- **Saves valuable warehouse space**
One roll of Fill-Air™ film produces up to 2.3m³ of cushions, equivalent to 5 bags of loosefill
- **Outstanding protection**
By using air-filled cushions your products can be protectively transported in total security
- **Clean and lightweight**
Dust-free, lightweight product
- **Enhanced customer satisfaction**
Your customers' goods will be delivered in perfect condition and packaged in a professional, clean and aesthetic material
- **Environmental benefits**
The air-filled cushions are reusable, 100% recyclable, helps to reduce waste

Features of Fill-Air™ TS

Easy to use system

No need to preheat, simply switch on and off

100% electric

Uses a standard 240 V 13 A outlet, no air required

Silent operation

Runs so quietly you might even forget it is there!

Free-standing, ergonomic and compact design

Compact system, wheel-mounted, with cushion bin and distributing arm, for perfect integration in the workplace

Production capacity

Produces up to 1m³ of cushions per hour
